FALL/WINTER PREP

### *Quarterly Newsletter*

From Michael DeGrazia, Nancy Driscoll, Christine Currie,  
Kim Pagan & Annmarie Stepancic

The Board of Longacre Gardens feels it's important to keep the shareholders updated throughout the year. We also hope this newsletter assists new residents to settle into Longacre Gardens. Residents who have questions, concerns or suggestions can contact us at:

**[boardlongacre@gmail.com](mailto:boardlongacre@gmail.com).**

## ***Robo Call***

We are excited to announce a new service which will be implemented this fall, robo call. This service will allow a shareholder to sign up for texts and/or emails to receive notices from Longacre.

If a shareholder chooses not to sign up for this service, any notices from robo call will also be posted in our laundry rooms.

## ***Landscaping***

We have recently replaced a Kwanzan Cherry tree in the circle. Soon we will be replacing two ailing trees on North Broadway with new Tuscarora Crape Myrtle trees, shown below. Tuscarora Crape Myrtles grow quickly and yield a 7-week bloom of pink flowers and exhibit colorful fall foliage.

## ***Fall/Winter***

Since the season is changing we want to remind residents of the following:

- Lawn furniture must be stored away by November 1st. Personal items cannot be stored in the garden beds.
- Air conditioners should be removed from the windows.
- Our team of snow removers clean Longacre quickly. When possible, please be considerate of your neighbors by moving your car to allow for more effective plowing.
- The exterior red doors must be kept shut during the heating season and yearlong during precipitation.

## ***"Home, A Place of Feeling or Belonging"***

This is an opportunity for shareholders to hear from the Board and to help us create a community that's built on positive morale. Please send suggestions to the board email address below.
