All JP Luther Masonic Aprons are assembled right here in our Berlin, Wisconsin factory. Our skilled sewing staff takes pride in carrying on the local tradition of quality leather garment manufacturing. The leather we use in manufacturing our presentation aprons is imported from Italy, where we are able to produce large white skins of consistently high quality.

We now offer a price reduction of \$10.00 per apron, when you select "Luthertex" in place of "Leather" for your Masonic apron. This fine simulated leather has been especially manufactured to resemble genuine leather in every detail. "Luthertex" makes a very wearable apron that will not stain or crack. It is virtually impossible to distinguish "Luthertex" from genuine leather.
