

Name _____

Date _____

Use the graph to complete parts (a)–(d).

- Plot a point that lies on the same vertical line as point B . Name the new point C . Record its ordered pair beside it on the coordinate plane.
- What do the coordinates for point B and point C have in common?
- Plot a point that lies on the same horizontal line as point A . Name the new point D . Record its ordered pair beside it on the coordinate plane.
- What do the coordinates for point A and point D have in common?
