

Name _____

Date _____

Each y -coordinate is 5 more than its corresponding x -coordinate.

- a. Complete the table.

x -Coordinate	Calculation	y -Coordinate	Ordered Pair
1	$1 + 5 = 6$	6	(1, 6)
3			
5			
7			

- b. Plot the four ordered pairs in the coordinate plane.

c. What is the rule for the x -coordinate?

d. What is the rule for the y -coordinate?

e. When the x -coordinate is 15, what is the corresponding y -coordinate?
