

12

Name _____

Date _____

1. Complete the tape diagram. Then complete the vertical form and check your work.

$$90 \div 30$$

a.

b.

$$30 \overline{)90}$$

Check: $90 = \underline{\quad} \times 30$

2. Estimate the quotient. Complete the tape diagram. Then complete the vertical form and check your work.

$$61 \div 30 \approx \underline{\quad} \div \underline{\quad} = \underline{\quad}$$

a.

b.

$$30 \overline{)61}$$

Quotient: _____

Remainder: _____

Check: $61 = \underline{\quad} \times 30 + \underline{\quad}$

Divide. Then check your work.

3. $243 \div 60$

4. $356 \div 50$

Quotient: _____

Remainder: _____

Check: _____

Quotient: _____

Remainder: _____

Check: _____

REMEMBER

5. Use the trapezoid to complete parts (a) and (b).

- Name the pairs of parallel sides shown in the trapezoid.
- Name the pairs of perpendicular sides shown in the trapezoid.
