

Name \_\_\_\_\_

Date \_\_\_\_\_

1. Use the graph to complete parts (a)–(g).

- For how many minutes does Noah practice pitching the first day?
- How many days does it take Noah to practice pitching for a total of 105 minutes?
- What does the point located at (4, 120) mean?
- After 6 days, Noah practiced pitching for a total of 210 minutes. Plot the point on the graph that represents the total amount of time Noah practiced pitching after 6 days.
- What are the coordinates of the point you plotted in part (d)?
- How many minutes does Noah practice pitching on day 6?
- Look at the points representing the total number of minutes Noah practiced pitching. These points do not appear to lie on the same line. Why?

**REMEMBER**

2. Order the numbers from least to greatest.

4.134, 4.144, 4.104, 4.14

---

3. Write the number in standard form.

$3 \times 100 + 1 \times 10 + 4 \times 1 + 9 \times 0.01 + 7 \times 0.001$
