

July 1, 2022

To: The residents & Owners of Holiday Village of Lake Livingston

Following our election in May, our President Tony Key, submitted a letter of resignation to be effective after the July 16th Board of Directors meeting. An email was sent out to everyone notifying the Village of that. Since that time, the Board has met with Tony and has worked out some issues to give Tony some assistance with his many duties and the Board now announces that the resignation was not accepted by the Board and that Tony has withdrawn his resignation. Furthermore, the Board has appointed two of the Directors to serve in the roll of Vice President, where either can step in to perform the duties of President, should The President be unavailable to address priority issues. This move also means that Mickie Parker no longer holds the position of Vice President and allows her more time to better serve our community as Office Manager. While the Board members are elected to serve 3 year terms, the officers are appointed by the Board to serve one year terms and their current term will expire in May 2023. Tony has served as our President for about 3 years and has proven to the Board to be an effective and hard-working President. Please remember that our Directors and Officers spend many volunteer hours to serve this community and receive no compensation for it. Below, you will see our full list of Directors and Officers for our Village. Finally, we have openings for volunteers to serve on various committees within our Village and ask that if you are interested in serving and getting involved, to please contact our Office Manager, Mickie Parker @ 936-377-5500 or contact the Board of Directors at HVLOABOD@GMAIL.COM Thank you from your Board of Directors!
