## ONGOING DITCH AND ROAD WORK

### Attention Holiday Villages Property Owners

Ditch work is still ongoing in Holiday Villages. Section J and Antilles ditch work is completed while Trinidad ditch work is close to being completed with the exception of culverts having to be reset. The Ditch crew will be moving to Cooke-Jones in the next few days working between Belize and Bimini Way. You may have to take alternative streets to get around the large equipment being used, please be patient. The ditch crew will return to Trinidad to reset culverts with a smaller piece of construction equipment.

Waters Construction will be starting the street work in Section J and Cooke-Jones in the next three to four weeks.

More information will be available soon!
