Core Competencies

The Triune Solution, LLC provides problem solving, RF engineering, digital exploitation and signals analysis expertise to Department of Defense and Intelligence Community organizations. As a Service-Disabled Veteran Owned Business, The Triune Solution is committed to professionalism and integrity. We offer customers a mission driven solution with a primary focus on analysis and engineering.

Differentiators

- ❖ Analyze signals and protocols for new and unknown technologies.
- ❖ Provide SIGINT support in the areas of access, collection, analysis and exploitation.
- ❖ Integrate analysis tools to perform non-standard evaluations for COMINT protocols and signals.
- ❖ Provide guidance to developers and operators of signal characteristics necessary for the exploitation of protocols and signals of interest.
- ❖ Extensive knowledge of FSAT processing components and antenna systems in the SHF/UHF spectrum including command and control applications and product repositories.
- ❖ Analyze and document data to improve RF/Line of Sight and VSAT communications.

Performance

C.K. Signals Inc

Contact: Caleb Sebra, CEO

Contract Length: Dec. 2021 - Present

Scope of work: Perform signal and protocol characterization duties to include providing support to developers and managers on new and unknown technologies.
