Paragraph 447.7 of the Book of Doctrines and Discipline requires an audit of the local church's finances. This is essential for protection and transparency. Local churches that do not comply with this are in significant danger of employee or volunteer theft, and having insurance claims denied.

Please read the paragraph as it sets forth what the audit must include. It does not necessarily have to be a full audit done by an independent CPA. Some of our churches will agree to review each other's financial records for free to cut down on costs. Please ask your presiding elder if you have questions.

☐ Submit your cover letter of this year's Annual Review/Audit☐ We did not have an Audit/Review completed.**Attached is our plan to get an Audit/Review completed**
