

Bitcoin Merchant Payment Services

Accept Bitcoin payments by mobile, online and in-store

“Backed by Tim Draper and Fidelity”

Bitcoin is swiftly becoming a mainstream currency for the masses. Our solution enables all merchants to seamlessly offer their customers the option of to pay for goods and services with bitcoin. As a payment option, Bitcoin provides a less-costly way to transfer value between merchants and customers:

The advantages are clear:

- Simple:** No intermediaries required
Secure: Decentralized and cryptographically sound
Instant: Instantaneous payment and settlement
Low-cost: Low per transaction fees
Global: Payment transactions are border-less

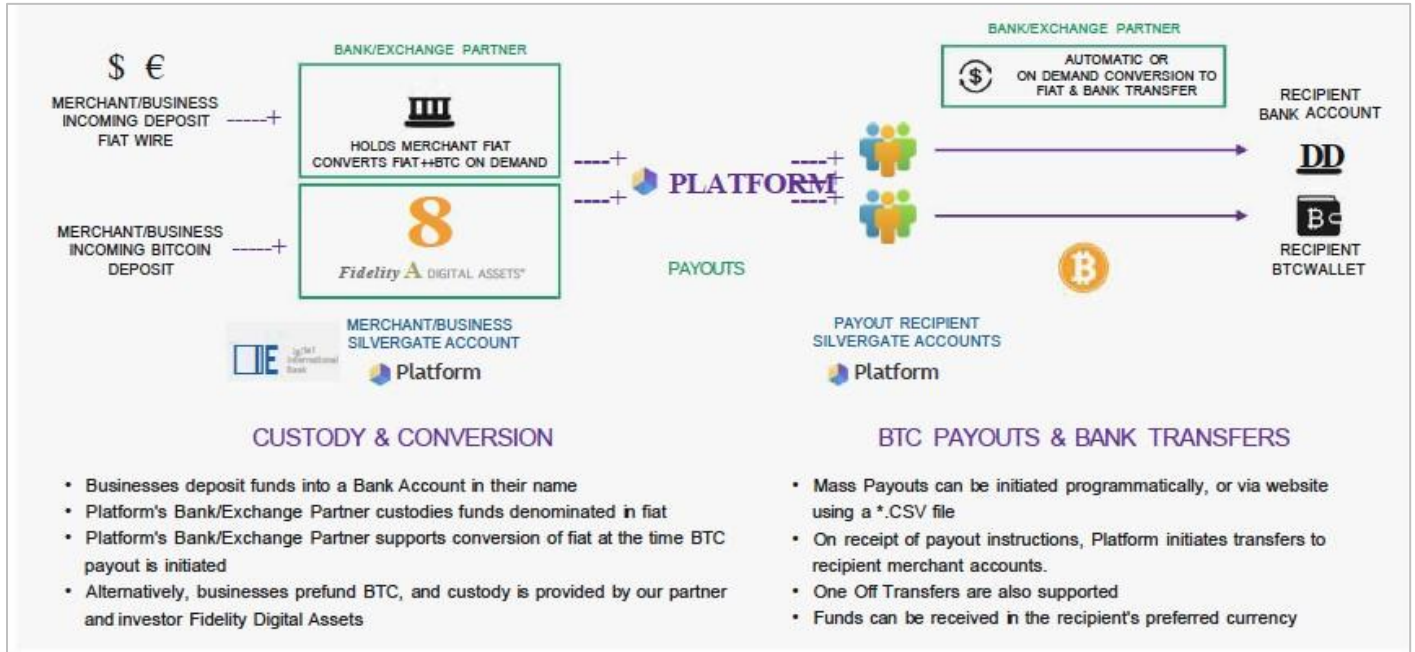

Our Bitcoin merchant processing capabilities Include:

- Payment Buttons/Links
