

TARZANGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM LODDIGESII

Origin: Asia

Temperatures: Warm to cold growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing in active growing season, semi-deciduous, no fertilizing and reduced watering in the wintertime.

General care: Super cute small Dendrobium species that produces very large, fuzzy looking blooms with sweet, pleasant fragrances. Grows best cold to warm, bright light, good air movement. Does best when grown mounted and needs dry and colder winters to produce buds anytime between January – June. Easy to grow species, semi-deciduous, old canes will shed leaves, reduce watering and no fertilizing in the wintertime.
