

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

AERANGIS PUNCTATA

Origin: Madagascar & Reunion

Temperatures: Hot to warm growing miniature orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round, let slightly dry between watering

General care: Very popular among all miniature orchid growers, this African beauty is must-have in your collection. Best grown mounted, in bright shade, letting slightly dry out between each watering. Do not use too much moss when mounting. Great plants for windowsills, vases, glass orbs, greenhouses or outside in Florida year-round.
