

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

BRACHYCORYTHIS ACUTA

Origin: Asia

Temperatures: Hot to warm growing small size terrestrial orchid species

Light: Bright shade

Watering & fertilizing: Regular watering and heavy fertilizing when active growing, will go completely dormant.

General care: Unusual and rarely seen in cultivation, this terrestrial orchid produces quite large blooms. Grows best under hot to warm conditions, potted, in bright shade. These are fully deciduous species, they go through yearly growing cycle – dormant for the winter time, will start sprouting in the spring. Great plant for indoor growing on windowsills or greenhouses and outdoors in proper zones.
