MICRO, MINIATURE AND SMALL ORCHIDS

## BULBOPHYLLUM TENELLUM

**Origin:** java

**Temperatures:** Hot to warm growing miniature size orchid species

**Watering & fertilizing:** Regular watering and fertilizing year-round.

**General care:** Cute tiny Bulbophyllum species that produces beautiful orange striped blooms. Grows best under warm to hot conditions, in shade and high humidity keeping lightly moist. Can be grown potted or mounted, prefers mounted either vertical or horizontal with moss (best is live moss but good quality sphagnum will work). It likes to creep above the moss, not buried inside. Great plant for terrariums, vivariums, glass orbs, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
