

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

CERATOCENTRON FESSELI

Origin: Philippines

Temperatures: Intermediate to cool growing miniature size orchid species

Light: Bright shade or filtered bright light

Watering & fertilizing: Regular watering and fertilizing year-round.

General care: Super cool miniature orchid species with quite large blooms compare to plant size. Grows best under intermediate to cool conditions, in bright light, good air movement and good humidity letting slightly dry out between waterings – we give these Cattleya conditions. Can be potted or mounted. Great plant for terrariums, vivariums, glass orbs, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
