

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

COELOGYNE SP. AFF CORYMBOSA

Origin: Asia

Temperatures: Cold to intermediate growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing in active growing season, less in the winter time.

General care: This is very attractive Coelogyne species – small size plants produce huge beautiful white blooms with colored lip. They bloom usually in spring. Grows best under cold to intermediate conditions, in bright light, good air movement and good humidity. Water and fertilize regularly during the active growing season, reduce watering and fertilizing in the winter time. Can be grown potted or mounted. Great plant for large terrariums, vivariums, indoor growing on windowsills or greenhouses and outdoors in proper zones.
