MICRO, MINIATURE AND SMALL ORCHIDS

CONSTANTIA CRISTINAE

Origin: Asia

Temperatures: Cool to warm growing mini miniature size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round, must dry out, good air movement, do not use moss on the mounts.

General care: Together with *Constantia microscopica*, these are two of the smallest orchids in the *Constantia* family. True micro miniature with stunning and large for the species blooms, super attractive growing habit. Grows best under cold to warm conditions, in bright light, with very good air movement, only good quality water. Must dry between waterings. We do grow all of our mounted. Perfect for windowsills, terrariums, greenhouses and outside year-round in proper zones.
