

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM DELACOURII

Origin: Vietnam

Temperatures: Hot to warm growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round letting slightly dry out.

General care: Great and easy to grow small size Dendrobium species with beautiful off-yellow blooms with super cool lip. Grows best under warm to hot conditions, in bright light, good air movement and good humidity. These are deciduous, they can lose all or majority of leaves for the winter season, do not fertilize from October and minimize watering till new growths start in the spring. Can be grown potted or mounted. Great plant for indoor growing on windowsills or greenhouses and outdoors in proper zones like Florida.
