MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM LICHENASTRUM VAR. PRENTICEI

Origin: Australia

Temperatures: Cold to hot growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round, must dry out between waterings.

General care: Great miniature Australian Dendrobium species with thick long pencil leaves, look more like succulent than orchid. Cute beautifully colored blooms. Grows best under warm to cool temperatures, bright light, good air movement, letting dry out between waterings. Due to creeping growing habit does best mounted. Excellent plant for windowsills, greenhouses, vases, and outside year-round in proper zones.
