

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM BELLATULUM

Origin: China

Temperatures: Cool to hot growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing in active growing season, limited watering and no fertilizing in winter time when semi-dormant.

General care: Beautiful small size Dendrobium species with huge blooms. Very easy to grow, does best under cold to hot conditions, in bright light, with good air movement. Can be grown potted or mounted. It goes semi-dormant, and may drop all the leaves for the winter, or keep some active growths. Stop fertilizing in October and limit watering in the winter time to initiate buds in the spring. Buds will appear only on old leafless canes. Perfect plant for windowsills, greenhouses and outside growing year-round in proper zones.
