

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM CANALICULATUM

Origin: Papua New Guinea & Australia

Temperatures: Warm to hot growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round.

General care: This amazing small Dendrobium species from tropical Australia and Papua New Guinea is also called “Tea Tree Orchid”.

Gorgeous colorful lightly scented blooms appear in winter and spring.

Grows best under hot to intermediate conditions, in very bright light – once acclimatized, direct sun is possible, good air movement, and letting dry out between waterings. Can be grown potted or mounted. Great plant for indoor growing on windowsills or greenhouses and outdoors in proper zone year-round.
