

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM MUCRONATUM

Origin: Thailand

Temperatures: Cool to intermediate growing miniature size orchid species

Light: Bright shade

Watering & fertilizing: Regular watering and fertilizing in active growing season, dormant care during winter months.

General care: This is one of the newer discoveries and still rare in cultivations. Gorgeous miniature size Dendrobium species with charming blooms. Grows best under intermediate to cool conditions, in bright shade or bright filtered light with good air movement and good humidity. Belonging to Stachyobium Dendrobiums, they can grow dormant or semi-dormant and will drop leaves in the fall – no fertilizing during fall/winter, light watering when dormant. Can be grown potted or mounted. Great plant for terrariums, vivariums, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
