

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

DENDROBIUM SUBULIFERUM

Origin: Papua New Guinea

Temperatures: Cool to hot growing small size orchid species

Light: Bright light

Watering & Fertilizing: Regular watering and fertilizing year-round.

General care: One of the cutest small Dendrobium species with beautiful and large white blooms that are long lasting. Grows best under cold to warm conditions, in bright indirect light, good quality water only and regular fertilizing year - round with high humidity. This is fairly easy to grow Dendrobium. Great for windowsills, terrariums, vivariums, greenhouses or outside growing year-round in proper zones.
