

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

ERYCINA / PSYGMORCHIS PUSILLA

Origin: Central & South America

Temperatures: Hot to intermediate growing miniature size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round, letting dry out between waterings.

General care: Attractive due to its growing habit, creates fans of leaves that produce spikes that are sequential bloomers and re-bloom for months! Very easy to grow and super popular among miniature orchid lovers, grows best under hot to intermediate temperatures, in bright shade, good air movement, good humidity but letting completely dry out between waterings. Great plants terrariums, vivariums, glass orbs, windowsill growing, greenhouses and outside in proper zones.
