MICRO, MINIATURE AND SMALL ORCHIDS

## LANKESTERELLA CERACIFOLIA

**Origin:** South America

**Temperatures:** Hot to cold growing miniature size orchid species

**Light:** Shade

**Watering & fertilizing:** Regular watering and fertilizing year-round

**General care:** Super attractive miniature orchid species is still not commonly seen in cultivations. Plants have interesting leaf shape and produce beautiful white/green fuzzy blooms. Grows best under cool to hot conditions, in shade, good air movement letting plants dry out between waterings, with good humidity. Excellent for terrariums, vivariums, glass orbs, windowsills, greenhouse growing and outside in proper zones year-round.
