

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPANTHES GUATEMALENSIS

Origin: Central America

Temperatures: Warm to cold growing miniature size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round, high humidity, only good quality water.

General care: One of uncommon Lepanthes in cultivation is definitely must have for any Lepanthes lover. Grows best under to intermediate conditions but can be grown cold or warm too, in bright shade, good air movement, high humidity and never bone dry, good quality water. Can be grown potted or mounted, best in live sphagnum moss. Great plant for terrariums, vivariums, glass orbs, frog encounters. Great for indoor growing or greenhouses.
