

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

LEPANTHES NIESSENIAE

Origin: South America

Temperatures: Intermediate to cold growing miniature size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round, high humidity, only good quality water.

General care: Mini miniature size Lepanthes species, does grow best under cool – intermediate temperatures. Shade, only good quality water, and weak fertilizing year-round with high humidity. Spikes are sequential bloomers and rebloom year-round. Can be grown potted or mounted, best in live sphagnum moss. Great plant for terrariums, vivariums, glass orbs, frog encounters. Great for indoor growing or greenhouses.
