MICRO, MINIATURE AND SMALL ORCHIDS

## MACROCLINIUM HIRTZII

**Origin:** Ecuador & Peru

**Temperatures:** Hot to warm growing miniature size orchid species

**Light:** Bright shade

**Watering & Fertilizing:** Regular watering and fertilizing year-round

**General care:** This is our tiniest Macroclinium species with super cute blooms. Grows best under hot to warm conditions, in shade, good air movement, high humidity. Great plant for terrariums, vivariums, glass orbs and frog encounters. Great for indoor growing on windowsills or greenhouses, can be grown in Florida outside year - round.
