MICRO, MINIATURE AND SMALL ORCHIDS

OBERONIA ENSIFORMIS

Origin: Asia

Temperatures: Hot to intermediate growing small size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round letting slightly dry out.

General care: This is one of larger Oberonia species with green / reddish leaves producing beautiful long spikes with hundreds of tiny orange blooms. Grows best under hot to intermediate conditions, in bright shade with good air movement and good humidity. Can be grown mounted hanging down. Great plant for indoor growing on windowsills or greenhouses and outdoors in proper zones.
