

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

PHALAENOPSIS STOBARTIANA

Origin: China

Temperatures: Warm to hot growing small size orchid species

Light: Bright shade

Watering & Fertilizing: Regular watering and fertilizing year-round

General care: Still not so common in cultivation, this small Phalaenopsis species produces nicely colored blooms. Plants can go semi-dormant over the winter months and can lose some or all leaves before resprouting in the spring, when it also blooms. Grows best under warm to hot conditions, in bright shade, good air movement and good humidity watered year-round but less in the winter time. Can be grown potted or mounted. Great plant for terrariums, vivariums, indoor growing on windowsills or greenhouses and outdoors in proper zones.
