MICRO, MINIATURE AND SMALL ORCHIDS

PLEUROTHALLIS LEPTOTIFOLIA

Origin: Brazil

Temperatures: Cold to intermediate growing miniature size orchid species

Light: Shade

Watering & fertilizing: Regular watering and fertilizing year-round

General care: Creeping Pleurothallis species with attractive growing habit, leaves looking more like succulent than orchid and clusters of yellow blooms can appear at any time of the year. Grows best under warm to cool conditions, in shade, with good air movement, good humidity letting dry out between waterings. Can be grown potted or mounted. Excellent for terrariums, vivariums, glass orbs, windowsills, greenhouse growing and outside in proper zones year-round.
