MICRO, MINIATURE AND SMALL ORCHIDS

PORROGLOSSUM TRIPOLEX

Origin: Ecuador

Temperatures: Cold to intermediate growing miniature size orchid species

Light: Shade

Watering & fertilizing: Regular watering and fertilizing year-round, high humidity and good quality water.

General care: Cute miniature Porroglossum species with nice blooms. Grows best intermediate to cool conditions, in shade / bright shade, good air movement and high humidity. Good quality water. Can be grown potted or mounted. Great plant for terrariums, vivariums, glass orbs, vases, indoor growing on windowsills or greenhouses and outdoors.
