

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

RESTREPIOPSIS NIESSENIAE

Origin: Colombia

Temperatures: Warm to cold growing small size orchid species

Light: Bright shade

Watering & fertilizing: Regular watering and fertilizing year-round, high humidity and good quality water.

General care: One of not commonly seen, easy to grow Restrepiopsis discovered & named after our friend Andrea. Nice yellow blooms appear at any time of the year. Grows best under warm to cool conditions, in bright shade, moist, high humidity and good air movement. Great for outdoor / indoor growing, windowsills or greenhouses, terrariums, vivariums and glass orbs or frog encounters. Can be grown in Florida outside year-round.
