MICRO, MINIATURE AND SMALL ORCHIDS

## SOPHRONITIS BREVIPEDUNCULATA

**Origin:** Brazil

**Temperatures:** Cold to intermediate growing small size orchid species

**Light:** Bright light

**Watering & Fertilizing:** Regular watering and fertilizing year-round

**General care:** Amazing small Cattleya species, this Sophronitis produces huge red blooms in compare to size of plant itself. Grows best under cold to intermediate conditions, in bright light, with good air movement and good humidity drying out between waterings. Can be grown potted or mounted (prefers mounting). Great plant for terrarium and vivariums, indoor growing on windowsills or greenhouses and outside in proper zones.
