MICRO, MINIATURE AND SMALL ORCHIDS

## TOLUMNIA JAIRAK RAINBOW

**Origin:** Cross

**Temperatures:** Hot to intermediate growing small size orchid cross

**Light:** Bright shade

**Watering & Fertilizing:** Regular watering and fertilizing year-round, good humidity.

**General care:** Tolumnia orchids are loved among many for their fan shape foliage and variety of gorgeous colored blooms. This hybrid can bloom anywhere from dark purple to orange/yellow – what blooms will appear on yours will be a surprise! Grows best under hot to intermediate conditions, in bright shade or filtered LED light, good humidity and air movement drying out between waterings – Tolumnia hates over water so no moss or little moss should be used when potting or mounting and good air movement. Can be grown potted or mounted. Great plant for terrariums, vivariums, greenhouses and outdoors in proper zones.
