

TARZANEGROUP

MICRO, MINIATURE AND SMALL ORCHIDS

TRISETELLA TRIGLOCHIN

Origin: Central & South America

Temperatures: Cool to warm growing miniature size orchid species

Light: Bright shade

Watering & fertilizing: Regular watering and fertilizing year-round, good quality water, high humidity.

General care: Beautiful miniature Trisetella species with nice large flowers. Blooms constantly throughout the year. Grows best under cool to warm conditions, potted or mounted, in bright shade, good air movement, slightly moist, never letting bone dry, with high humidity. Great for terrariums, vivariums, frog encounters, glass orbs, windowsills or greenhouses and outside growing in proper zones year-round.
