MICRO, MINIATURE AND SMALL ORCHIDS

## ZEUXINE GRANDIS

**Origin:** Asia

**Temperatures:** Cold to warm growing small size terrestrial / jewel orchid species

**Light:** Bright shade

**Watering & fertilizing:** Regular watering and fertilizing in active growing season (spring summer), semi-deciduous – no fertilizing in the winter time, low watering during dormancy when leafless.

**General care:** Not commonly seen in cultivation, this miniature to small size jewel orchid is great addition to any collection. Grows best under cold to warm conditions, in bright shade and high humidity keeping lightly moist (not soggy wet). Can be grown potted. They will lose old leaves and re-sprout from the same rhizome. Great plant for terrariums, vivariums, vases, indoor growing on windowsills or greenhouses and outdoors in proper zones.
