MICRO, MINIATURE AND SMALL ORCHIDS

## BULBOPHYLLUM MUSCARIRUBRUM

**Origin:** Asia

**Temperatures:** Cold to intermediate growing small orchid species

**Light:** Bright shade

**Watering & Fertilizing:** Regular watering and fertilizing in active growing season, no fertilizing from October, no watering when completely leafless and dormant.

**General care:** One of the cute strange looking deciduous Bulbophyllum species. Grows best under cold to intermediate conditions, in bright shade, good humidity and air movement – completely dormant in the winter time, no fertilizing from October, only light misting in the winter time when leafless. Can be grown potted or mounted. Great plant for terrariums, vivariums, glass orbs, greenhouses and outdoors in proper zones.
