

Stamp Swap

The New Stamp Themed Board Game

By David M. Klauber

Are you in search of a diversion from your daily stamp-collecting routine? If you're looking for a refreshing break from your collection albums, consider inviting your stamp-collecting friends for a few rounds of Stamp Swap, an engaging board game created by Paul Salomon and produced by Stonemaier Games. One of my daughters gifted me this game during the holiday season, offering us a delightful alternative to our usual lineup of games.

Overview

Stamp Swap is a pleasant, light-hearted strategy game that revolves around the simple mechanics of player interaction. Players take turns creating piles of stamps, but with a twist—each pile can be chosen by another player under an “I cut, you choose” mechanic. This dynamic leads to a game of strategy, negotiation, and sometimes a little bit of trickery. It’s a fantastic game for small groups.

Distributed by Stonemaier Games, a company renowned for its hit titles like *Wingspan* and *Wyrmspan*, has earned a reputation for producing innovative and engaging games that captivate enthusiasts from all walks of life. *Stamp Swap* is no exception, seamlessly combining your love for stamps with strategic gameplay that adds a fun twist to your collection hobby. In *Stamp Swap*, players take on the role of eager collectors, striving to build the most impressive collection by swapping rare and valuable stamps. As you and your fellow players dive into the game, you'll engage in clever trades, outwit your competitors, and add rare stamps to your collection. The excitement grows with each

swap, and the joy of the game mirrors the thrill of discovering a valuable, elusive stamp for your collection.

Like your stamp albums, this game is about more than just the end result—the journey, the strategy, and the fun of connecting with others who share your passion for stamps. It's a perfect opportunity to break from your routine and delve into a world of collectible fun, where every swap could be a game-changer. So, whether you're a seasoned philatelist or simply someone who enjoys a game with a touch of thematic charm, *Stamp Swap* is an engaging distraction that will have you swapping stamps, tales, and amusement for hours.
