

Bid Board

BID-BOARD RULES

1. Your club dues must be current to participate.
2. Each seller can list up to 10 lots (# of lots may change due to site limits).
3. Each lot must contain 1 photo, a brief description of no more than 200 characters, an estimated or catalog value, and a minimum reserve price (the price should include the cost of a stamp to mail).
4. Lot descriptions must be accurate. If a purchased lot differs from the description, the seller will refund the buyer, and the buyer will return the item.
5. All lots are to be made available to all members, including those who live outside the San Diego County area. Each lot will include the cost of a first-class envelope to the seller (currently 78 cents). If additional shipping charges are incurred, they are the responsibility of the buyer, who will pay them. We will not list any "Library pick up only" lots.
6. Sellers will pay the Poway Stamp Club a 10% fee on all sales. The Secretary will collect these fees at her discretion. Any returned items must be reported to the Secretary at the time of return to remove the transaction from the club's records and avoid the 10% fee on that item.
7. Upon closing each bid board, the secretary will notify both buyers and sellers of the result. It is the SELLER's responsibility to reach out to buyers and arrange payment and delivery. Please open a fresh (new) email to communicate with your buyers and arrange payment and delivery or shipping. THE BUYER is responsible for all shipping costs that exceed the current letter rate of 78 cents. This applies to both local and remote members.
8. Any disputes will be directed to the Secretary by email. She will investigate and render a "Snap Judge" decision. The Secretary tracks and maintains a complete history of all transactions to facilitate dispute resolution. All Snap Judge decisions are final!
9. Disputes must be made within 30 days of the close of the bid board.
10. HAVE FUN...THIS IS ALL ABOUT FUN WITH OUR STAMPS....

NOTE: The Web Master is not a magician. Poor photographs do not magically become great photos. Remember, garbage in, garbage out. Take time to get a good shot...this sells your lots. If help is needed, see David or me at the Library on Friday afternoons. We can help!
