

PROJECT PRICING GUIDE

A Visual Estimator

AQUATICEDGE
POND & LANDSCAPE SOLUTIONS

ABOUT THIS GUIDE....

.....
Within this Project Pricing Guide you will find photos of actual jobs we, Aquatic Edge, have installed - some as recent as this calendar year and some that were completed many years ago.

Projects have been grouped based on approximate installation prices, adjusted for today's economics (2021). Keep in mind that every installation project is inherently different, even though the final products may sometimes look similar. Factors that can affect a project's budget include: access for equipment, logistics of deliveries, materials chosen, type and size of rocks/ boulders used, digging conditions, removal of existing ponds, hauling away excess soil and debris, etc.

The purpose of this Guide is to give our clients a clear, realistic expectation of estimated costs for various sized projects. This can save a great deal of time, as well as help to get us off to a solid start and mutual understanding of the project scope that we will be working to achieve together.

**General specs and details for each project pictured are included. Optional items may be included in some photos (landscape plantings, patio walls, etc.) and should not be inferred to be included within the listed budget range, unless noted otherwise.*

REPAIRS, CONSULTATIONS, AND MAINTENANCE

General Service Call _____ **Starts at \$250**

Common issues can sometimes be repaired in as little as 1 hour and with incidental materials needed. Such as finding and repairing simple leaks caused by a low edge of pond liner, removing string algae from a small pond, cleaning a skimmer or biofalls filter.

On-site Project Design Consultation/ Quote _____ **\$250***

**Credited toward future service/installation/product (within 12 months)*

The final step of the quoting process. After phone/email conversations have determined the design style, budget range and timeframe of your project we will schedule a visit to go over details and confirm measurements of the property. An electronic sketch of the project will be provided along with a detailed quote.

Spring Pond Cleanout _____ **Starts at \$800**

March - May is Spring Cleanout Season. We remove all water, fish and decor from the pond and give it a good deep cleaning. Existing pond water is re-used when applicable to reduce stress on your fish. Typical price range \$800 - \$2,000 with an average cost of \$900 - \$1,000 for most backyard ponds.

Other Water Feature Services _____ **Varies**

Services such as Fall Netting, Filter Upgrades, Lighting Installation, and Pump Replacements will have varied costs, typically between \$500 - \$6,500 depending on the nature of the problem and size of the pond.

INSTALLATIONS UNDER \$10k

A new installation of a small water feature, small pond or small pondless waterfall will cost between \$2,500 and \$10,000.

Pond size approximately 5'x8'x2' with small waterfall will start at \$6,000

Pondless Waterfall stream length approximately between 3' and 8' will be between \$4,500 and \$9,500

Water Feature such as bubbling urn, overflowing vase, or other decorative piece will typically range between \$2,500 and \$8,000

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Koi Ecosystem Pond

Approximate Size - 8' x 11' x 2' deep

Filtration - Mini constructed wetland, Intake skimming bay

Pump(s) - Aquascape 5PL pump

Other Items Included - Plantings, Stump/Driftwood Accents

Approximate Price - \$15,000

Installation Details

Ligonier, PA

There was an existing pond which was non-functional. Project scope included removal of existing pond components. All new materials were delivered and installed. Mountain sandstone boulders and river gravel were utilized for this project.

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 16' length

Filtration - Pondless Basin

Pump(s) - Aquascape 2-4K Variable Speed

Other Items Included - Plantings, Stump/Driftwood Accents, Lights, Iongen

Approximate Price - \$16,000

Installation Details

Plum, PA

An old improperly built pond once inhabited this backyard space. All pond materials were removed, and most of the existing rock was reused. Some aquatic plantings were added as well as a handful of 3-watt LED waterproof lights for evening viewing.

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Koi Ecosystem Pond & Stream

Approximate Size - 11' x 16' x 2' deep, 5' stream

Filtration - Aquascape BioFalls, Aquascape Skimmer

Pump(s) - Aquascape 5PL pump

Other Items Included - Automatic Dosing System, Stump/Driftwood Accents

Installation Details

Ligonier, PA

A very old concrete pond existed in the center of this circular driveway. The old pond was very difficult to keep clear and clean due to lack of adequate filtration. Project scope included removal of existing pond components. All new materials were delivered and installed.

Mountain sandstone boulders and river gravel were utilized for this project.

Approximate Price - \$19,000

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Semi-Formal, Raised Koi Ecosystem Pond

Approximate Size - 5' x 9' x 4' deep

Filtration - Mini constructed wetland, Bottom intake w/ jet line

Pump(s) - Aquascape 4k pump

Other Items Included - Plantings, Iongen, Lights

Approximate Price - \$13,000

Installation Details

Gibsonia, PA

A stamped concrete patio and retaining wall were constructed prior to our arrival, along with the excavation for the pond. We shaped the contours and shelves as needed for the pond design and installed an under-liner drainage solution due to presence of groundwater. Using a combination of flat lilac fieldstone and weathered limestone boulders we created this semi-formal pond to compliment the style of the surrounding hardscape. This project won "Most Artistic" Water Feature for 2017 Pond Trade Magazine.

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Koi Ecosystem Pond & Stream

Approximate Size - 11' x 16' x 2' deep. 6' Stream

Filtration - Aquascape BioFalls and Skimmer

Pump(s) - Aquascape SLD 5-9K GPH Variable speed

Other Items Included - Lights, Driftwood Accents, Soil Amendment and Mulch

Approximate Price - \$20,000

Installation Details

Greensburg, PA

This fenced-in back yard originally was home to a tiny preformed plastic pond with several koi and goldfish. We installed a pond large enough for the fish to grow happily. We cut a radius into the existing paver patio to provide a cohesive design element that invites the homeowner out to the standing rock to view and feed the fish. Care was taken to preserve plenty of room for people and dogs to walk around the pond and access the gates easily.

INSTALLATIONS \$10 – \$20k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 15' of stream length

Filtration - Pondless waterfall basin

Pump(s) - Aquascape 5-9K Variable Speed

Other Items Included - Plantings, Stump/Driftwood Accents

Approximate Price - \$16,000

Installation Details

Fox Chapel, PA

An existing waterfall/small pond combo was suffering from leaks and poor filtration. Our clients desired a low-maintenance and aesthetically beautiful solution that would compliment the existing lush landscape beds. We removed all old materials, re-graded the slope, and constructed a pondless waterfall utilizing mountain sandstone boulders and river gravel - all while working to avoid damaging the established tree and shrub plantings.

INSTALLATIONS \$20 – \$40k

Project Specs

Installation Type - Koi Ecosystem Pond & Stream

Approximate Size - 11' x 13' x 2' deep, 10' stream

Filtration - Aquascape BioFalls ,Aquascape Skimmer

Pump(s) - Aquascape 5PL pump

Other Items Included - Stump/Driftwood Accents, Landscape Boulders, Stone Bridge, Spillway Bowl

Approximate Price - \$22,000

Installation Details

Fairmount City, PA

The homeowners originally built a quaint little pond many years prior, and they were ready for an upgrade. Homeowners removed the existing pond prior to our arrival. All new materials were delivered and installed including a slab step/bridge across the stream and an Aquascape Spillway Bowl. Mountain sandstone boulders and river gravel were utilized for this project.

INSTALLATIONS \$20 – \$40k

Project Specs

Installation Type - Koi Ecosystem Pond & Stream

Approximate Size - 12' x 18' x 3' deep. 7' Stream

Filtration - Aquascape BioFalls and Skimmer

Pump(s) - Aquascape 5PL

Other Items Included - Aquatic and Landscape Plantings, Lights, Auto

Dosing System, Powerhead Jets, Flagstone bottom

Approximate Price - \$35,000

Installation Details

Dravosburg, PA

A backyard lawn was completely transformed into an interactive koi ecosystem pond for this project. The client had an existing DIY pond, but he was ready for a fresh start with a fully upgraded pond. Easy access to sit on the flagstone shelf (shown on right side of the pond's shallow edge) allows full interaction with finned friends. Equipment access was difficult inside the existing wooden fence, but provides ultimate seclusion in a busy neighborhood.

INSTALLATIONS \$20 – \$40k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 16' of stream length

Filtration - Pondless waterfall basin

Pump(s) - Aquascape 4-8K Variable Speed

Other Items Included - Plantings, Stump/Driftwood Accents, Lights, Iongen

Approximate Price - \$21,000

Installation Details

Greensburg, PA

We transformed the corner of this backyard in Greensburg by installing a beautiful pondless waterfall utilizing weathered limestone boulders, driftwood accents, aquatic and landscape plantings, and Aquascape LED lighting. Also included with this project is a weathered limestone retaining wall, mulch and re-seeding of disturbed lawn areas.

INSTALLATIONS \$20 – \$40k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 25' of stream length

Filtration - Pondless waterfall basin

Pump(s) - Aquascape 4-8K Variable Speed, Ultra 2K pump

Other Items Included - Plantings, Stump/Driftwood Accents, Aquascape Slate Walls, Lighting, Iongen

Approximate Price - \$39,000

Installation Details

Irwin, PA

An old leaky waterfall once stood on this prominent front street-facing slope. Utilizing large weathered limestone boulders we created this luxurious waterfall which has the appearance of being carved from nature. A steep vertical slope is a challenge which requires structural and artistic skill to achieve the desired outcome. Aquascape slate walls add architectural interest to help blend the natural design with a touch of formality.

INSTALLATIONS \$40 – \$75k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 30' of stream length

Filtration - Pondless waterfall basin

Pump(s) - (2) Aquascape 9PL pumps

Other Items Included - Stump/Driftwood Accents

Installation Details

Sarver, PA

We were given a blank slate to work with on this project. All of the rocks are local field sandstone boulders which were harvested from the property. A truly “Naturally Inspired” Design with a gorgeous forest backdrop. This project won the “Best Pondless Waterfall” award for 2016 Pond Trade Magazine.

Approximate Price - \$50,000

INSTALLATIONS \$40 – \$75k

Project Specs

Installation Type - Koi Ecosystem Pond & Stream

Approximate Size - 13' x 20' x 2' deep. 20' Stream

Filtration - BioFalls, Intake Skimming Bay

Pump(s) - (2) Aquascape 9PL pumps, (1) Aquascape 5PL

Other Items Included - Stump/Driftwood Accents, Lights, Auto Dosing System, Aeration

Installation Details

Fox Chapel, PA

Starting from scratch with a steep slope, we constructed an ecosystem style koi pond with large waterfall. An intake bay acts as a skimmer to pull debris across the water surface, and underwater lighting illuminates the pond for evening enjoyment.

Approximate Price - \$55,000

INSTALLATIONS OVER \$75k

Project Specs

Installation Type - Pondless Waterfall

Approximate Size - 60' of stream length

Filtration - Pondless waterfall basin, Constructed Wetland Filter

Pump(s) - (2) Aquascape 5PL pumps, (1) Aquascape 3PL

Other Items Included - Stump/Driftwood Accents, Lights, Landscape plantings, Firepit, Automatic Dosing System, Landscape Boulders, Iongen

Installation Details

Butler, PA

A flat grassy lawn provided the canvas for this installation. Excavated soil was used to increase elevation for the desired slope. Mountain sandstone boulders and river gravel were utilized in this design which includes thoughtful pathways and a deep pool within the stream for fun interaction.

Approximate Price - \$80,000

INSTALLATIONS OVER \$75k

Project Specs

Installation Type - Koi Ecosystem Pond with Stream

Approximate Size - 25' x 40' x 3' deep, 30' stream length

Filtration - Constructed Wetland Filter, Intake Skimming Bay

Pump(s) - (2) Aquascape 5PL pumps, (1) Aquascape 5-9K Variable Speed

Other Items Included - Stump/Driftwood Accents, Lights, Aquatic plantings

Installation Details

Upper St. Clair, PA

A poorly filtered large pond was existing in this space. A complete removal and new installation was required to achieve the desired results of a large naturally-inspired design with adequate filtration for clear and healthy water. Multiple waterfalls and focal points make for a one-of-a-kind feature for this property.

Approximate Price - \$90,000
