Our attendees include plumbing, gas and mechanical contractors, building professionals, municipal, county and state regulatory officials/inspectors. Attendance averages between 100-125 individuals from year to year. These individuals are eager to gain new product knowledge that can be taken back to their respective business, city, county or state office. Our vendors enjoy opportunities to not only show their company’s products, but to discuss the application of those products one on one with the individuals who will purchase, install, approve and inspect those products, as well as making contacts across the State of Alabama.

We have approximately 1500 square feet of booth space available, and a 621 square foot classroom available for breakout sessions. Breakout sessions are broken down into 15 – 60-minute slots on the first and second days of the conference. Time slot availability is on a first come first served basis.
