# Edible Vegetables:

\$2 each or \$18 per flat

## **Arugula**

- Rouquette

## **Chives Garlic**

## **Lettuce**

- Buttercrunch
- Parris Romaine
- Salad Bowl Red

## **Mustard Greens**

- Red Giant

## **Onion**

- Sweet Yellow

## **Parsley**

- Triple Curled

## **Spinach**

- Green Beret

## **Pumpkin**

- Baby Bear

# Accents:

\$4 each or \$27 per flat

## **Parsley**

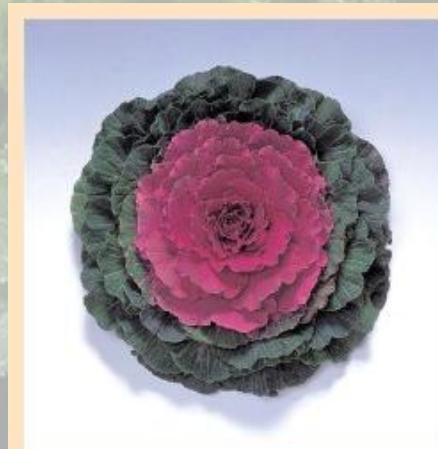

- Triple Curled

## **Thyme**

- Creeping Thyme

## **Kale**

- Pigeon Red

## **Pigeon Flowering Kale**

- Plant in Sun ☀️ (at least 6 hrs of sun)
- Grows 8-12" (20-30cm) tall by 12-14" (30-36cm) wide
- A unique ornamental kale for garden landscapes and combination planters that almost looks like large roses. Compact, dwarf plants with uniform, round shaped, solid heads and slightly wavy leaves. Compact, small-leaved series is frost tolerant.
- Heads begin to display colors on the plant's central leaves when the air temperature consistently falls below 55-60° F.

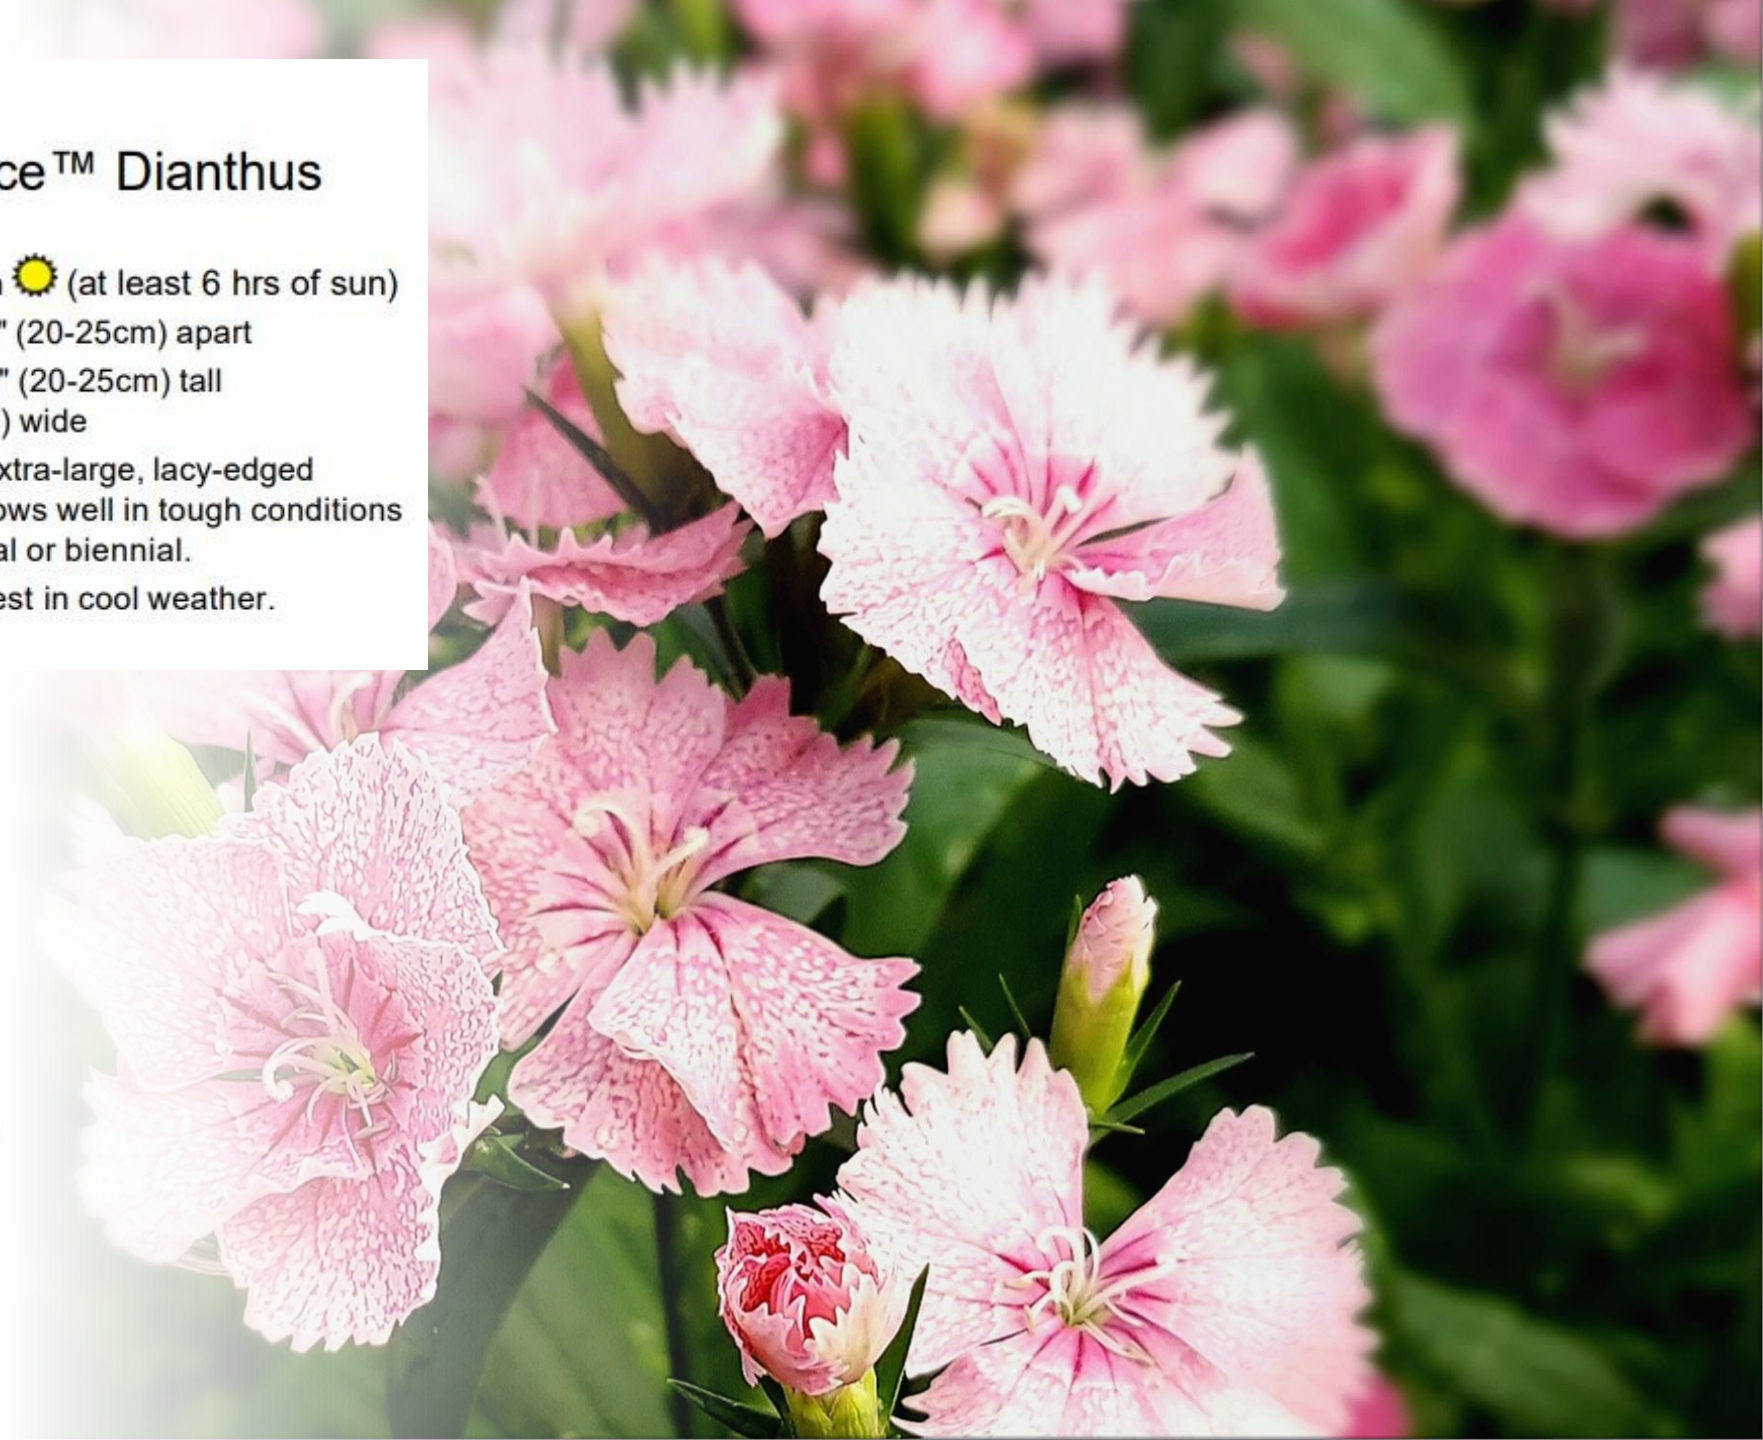

## Floral Lace™ Dianthus

- Plant in Sun ☀️ (at least 6 hrs of sun)
- Space 8-10" (20-25cm) apart
- Grows 8-10" (20-25cm) tall by 8" (20cm) wide
- Shows off extra-large, lacy-edged flowers. Grows well in tough conditions as an annual or biennial.
- Performs best in cool weather.

## Dianthus Mix

**\$4.00 for singles**

**\$27.00 per flat of 18**

# Snaptastic Mix Snapdragon

\$4 each or \$27 per flat of 18

Plant Details:

**Height:** 14 - 16" (36 - 41cm)

**Width:** 14 - 16" (36 - 41cm)

**Exposure:** Sun

**General Information:** Plants have a large central flower with rapid secondary flowering, plus strong stems that assure less breakage. Attracts bees.

Grower Information:

A strong root system makes Snaptastic more resilient to heat and suitable for both Spring and Fall programs. Plants have a large central flower with rapid secondary flowering, plus strong stems that assure less breakage from growing to garden. Less daylength sensitive than others of this type.

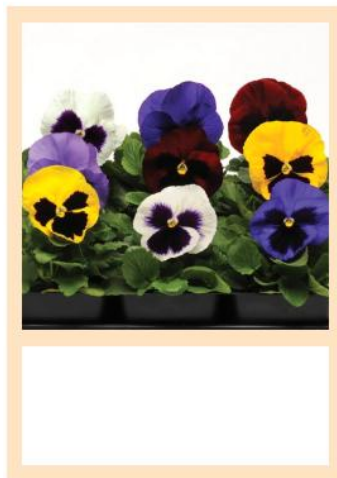

# Pansy

**\$2.00 each or \$20.00 per flat**

- **Matrix**  
Beaconsfield  
Lavender Shades  
Light Blue  
Ocean Breeze Mix  
Orange  
Rose Wing  
Solar Flare  
Yellow  
Yellow Blotch  
Yellow Purple Wing
- **Spring Matrix**  
Blotch Mix  
Pink Shades

- **Delta Pro**  
Clear Colors  
Mix  
Red  
Tricolors Mix  
Violet
- **Majestic Giants**  
White Blotch

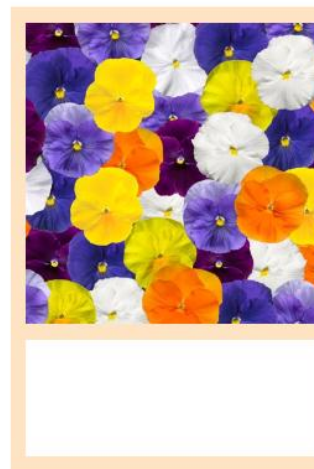

## Spring Matrix™ Pansy

- Plant in Partial Sun, Sun ☀️☀️
- Space 6-8" (15-20cm) apart
- Grows 8" (20cm) tall by 8-10" (20-25cm) wide
- Large, thick-petaled, 3-in./8-cm flowers are held beautifully over the foliage on strong, sturdy stems. Produces more flowers per plant than other pansies to create high-impact landscapes and containers.
- Plant in full to partial sun in early Spring or Fall for best performance. In some climates, pansies planted in Fall will overwinter and rebloom the next Spring.

## Matrix® Pansy

- Plant in Partial Sun, Sun ☀️☀️
- Space 8" (20cm) apart
- Grows 8" (20cm) tall by 8-10" (20-25cm) wide
- Extra-large flowers on strong, sturdy stems. Produces more flowers per plant than other pansies to create high-impact landscapes and containers.
- Plant in full to partial sun in early Spring or Fall for best flowering. In some climates, pansies planted in Fall will overwinter and rebloom the next Spring.

## Delta Pro Pansy

- Plant in Partial Sun, Sun ☀️☀️
- Grows 4-6" (10-15cm) tall by 6-8" (15-20cm) wide
- Short flower stems hold large flowers upward, providing long-lasting and impactful color to your pots and gardens. Compact and heavily branched plants fill pots quickly.
- Plants need at least 4 to 6 hours of sun to produce lots of blooms. Water regularly but be careful—overwatering can create root problems. Pansies thrive in soil rich in organic matter. For pots, choose a soil mix specifically for containers.

## Majestic Giants II Pansy

- Plant in Partial Sun, Sun ☀️☀️
- Space 7-8" (18-20cm) apart
- Grows 8" (20cm) tall by 10" (25cm) wide
- Maintains extra-large flower size under warm conditions with excellent overwintering and rebloom in the spring. Blooms show a contrasting dark "face."
- Plants need at least 4 to 6 hours of sun to produce lots of blooms. Water regularly but be careful—overwatering can create root problems. Pansies thrive in soil rich in organic matter. For pots, choose a soil mix specifically for containers.

# Violas

**\$2.00 each or \$20.00 per flat of 18**

- **ColorMax**  
Orange
- **Penny**  
Blue  
Yellow  
Yellow Jump-Up
- **Sorbet**  
Beaconsfield  
Icy Blue  
Fire  
Lemon  
Pink Wing  
True Blue  
Color Mix  
Harvest Mix  
Orange  
Purple  
White

## Sorbet® XP Viola

- Plant in Partial Sun, Sun  
- Space 6" (15cm) apart
- Grows 6-8" (15-20cm) tall by 6-8" (15-20cm) wide
- Early-blooming, free-flowering plants remain compact in both heat and cold and have excellent overwintering ability.
- Plant in full to partial sun in early Spring or Fall for best flowering. In some climates, violas planted in Fall will overwinter and rebloom the next Spring.

## Penny Viola

- Plant in Partial Sun, Sun  
- Grows 4-6" (10-15cm) tall by 4-6" (10-15cm) wide
- Early-flowering violas display 1-in. (2.5-cm) blooms. Excellent cool weather tolerance.
- Violas grow best during cooler weather in full sun; warmer weather in partial shade. Plant after the last spring frost and again in the fall. Water regularly; do not let flowers dry out. Deadhead spent flowers to encourage fresh blooms. Cut back violas in the early fall to rejuvenate the plant and encourage additional blooming.
