RABBIT CARE GUIDE

A Quick Reference for Families

👧 Rabbits & Children

- Rabbits are **delicate and easily frightened**.
- Young children may accidentally harm them by:
  - Holding or carrying them
  - Dropping them (can cause serious injury)
- Rabbits may **scratch or bite when scared**.
- ✅ **Adults should be the primary caregivers.**

🏠 Housing & Exercise

- Minimum space: **2 ft x 2 ft x 4 ft**
- Provide **several hours of exercise daily**
- Use solid flooring or cover wire bottoms

Indoor Living is Best

- Protects from predators, disease, and stress
- Rabbits are social and need interaction

Safety Tips

- Cover electrical cords
- Keep away from extreme heat
- Limit exposure to barking dogs and visible cats

🌿 Diet Essentials

Always Provide

- **Hay (Timothy or Orchard): 24/7 access**
- **Fresh water daily** (heavy bowl preferred)

Daily Foods

- Plain pellets (small amount)
- Leafy greens (lettuce, kale, parsley, cilantro)

Treats (Limit)

- Small fruit slices or carrots
- Herbs like basil or parsley

❌ Avoid

- Bread or high-carb foods
- Sugary or mixed pellets
- Unsafe plants

🚽 Litter Training

- Rabbits are **naturally clean**
- Place litter box in their chosen corner
- Use:
  - Paper litter or wood pellets
  - Hay in or above the box

❌ Avoid

- Pine/cedar shavings
- Clay cat litter

💖 Handling & Care

- Support **front and back legs when lifting**
- ❌ Never lift by ears
- Keep close to the ground if rabbit struggles

Grooming

- Brush regularly
- Trim nails (with vet guidance)

Social Needs

- Rabbits need **daily attention and interaction**

🏥 Health & Vet Care

- Require an **exotic animal veterinarian**

Spay/Neuter Benefits

- Prevents unwanted litters
- Reduces behavior issues
- Prevents uterine cancer in females

Behavior Tips

- Rabbits are **prey animals**—they scare easily
- Approach gently from the side
- Territorial behavior is normal and improves after spaying/neutering

---

Final Reminder

Rabbits are **not low-maintenance pets**. With proper care, they become **loving, gentle companions**.

This guide is educational and does not replace advice or examination by a veterinarian.

Provide a safe home, proper diet, and daily care—and your bunny will thrive!
