**BENSON** TECHNOLOGY GROUP

Scalefusion

Effortless Mobile Device and Endpoint Management for Modern Enterprises

Why Choose Scalefusion?

- Helps minimize IT help desk burden by enabling remote device troubleshooting
- Real-time device location tracking facility
- Enables multiple device management at once
- Business data-loss prevention and mitigation
- Ability to implement extensive device and app-related security measures

 Android Enterprise

 Apple Business Manager
 Windows Autopilot

 Debian

 macOS

Overview

Provision, configure & secure mobile phones, tablets, laptops, computers, rugged devices, POS systems & special-purpose devices over diverse operating systems. Administer content & apps on the devices whilst ensuring end-to-end device & data security.

Highlights

- Simplified device enrollment & provisioning
- Cross-platform support to adapt device diversity
- Uncluttered, user-friendly dashboard
- Streamlined application & content management
- Task automation resulting in reduced IT work

Over **8000+ customers** across **120+ countries** trust Scalefusion to manage their company-owned as well as employee-owned (BYOD) devices. Some of Scalefusion's esteemed customers include PicknPay, Satya Micro Capital, At The Gate, Make A Difference, SmarterBiz, and many more.

Key Features

Enrollment

Out of the box enrollment for Android, iOS, macOS and Windows 10 devices

Content Management

Share files & create presentations with diverse file format support.

Location tracking

Track your devices remotely based on GPS, IP address and Geofencing

Remote Troubleshooting

Reduce device downtime and save on-site expenses with remote troubleshooting

Conditional Email Access

Empower your IT teams to monitor devices accessing your corporate email server and prevent access to devices that do not comply with Scalefusion MDM policies.

Application Whitelisting and Blacklisting

Downloading unidentified apps on devices can invite malware, posing a severe threat to device and data security. Scalefusion MDM allows IT admins to block specific applications on the devices, restricting complete access.

Comprehensive Device Monitoring

Obtain a comprehensive overview of inventory & vitals with DeepDive analytics

Reports & Workflows

Generate quick reports & create workflows to automate scheduled tasks

Custom Branding with Boot Animation

Customize device aesthetics according to your requirements starting from the boot up logo to the wallpaper and Lock Screen.

Kiosk Mode

Configure corporate-owned devices for business by locking them in single or multi-app kiosk mode. Disable non-business apps and websites to prevent employee distractions & device misuse.

Patch Management

Simplify security and compliance by ensuring that your Windows devices and applications run on the latest versions, at all times. Reduce IT cognitive load by automating Windows OS and app patch updates.

Security

Implement robust security schemes for your company-owned and employee-owned devices.

About Scalefusion

Ambitious companies around the world trust Scalefusion to secure and manage endpoints including smartphones, tablets, laptops, rugged devices, POS and digital signages. Our mission is to make Device Management simple and effortless along with providing world class customer support.
