

TrackLight

100% Covert GPS Trailer Light

If you can install a trailer light, you can install a TrackLight!

TrackLight is designed to look, work and install the same as a normal tail light. It delivers complete covertness, robust performance and the quickest and simplest installation of any asset tracker in the trucking industry. Using the already available trailer lighting circuits for power, it requires no extra wiring or mounting.

TrackLight is available in various models

4" Round (VT1611)

6" Oval (VT1711)

6" Side Marker (VT2011)

4" Square (VT2012)

TrackLight's Main Functions!

Easy Installation

Waterproof, Dustproof and Shockproof

Uses 4G Cellular Network

Draws Power from the Brake and Tail Light Circuits

3-Month Reporting when Unpowered

Designed for all types of trailers!

AnyFleet

Track and Manage Your Assets
Anytime, Anywhere

Our Web Portal has many Features to help you improve the efficiency of your Business.

Anytrek's AnyFleet web platform can be accessed for free with the purchase of any of our GPS tracking products. It provides the tools for you to monitor the location and status of your fleet and much more. Once you become an Anytrek customer, your tracking data is securely stored and accessible by you for as long as you remain a customer, we don't charge for storage and don't set an expiration period.
