Dimensions

L*W*H (mm):
730*476*1050 (closed)
The height of the table
top(mm):
730*476*1200(±5)
(extended)

Features:

- **Unrestricted mobility**

The Podium provides unrestricted mobility through its feature of built in power supply and wireless connectivity to large screen, gives the user full flexibility of moving the podium during the presentation

- **Dual Motors**

The angle of view and the height of the podium can be adjusted using a single button, allowing for real-time lifting. The height can be customized to accommodate the speaker's preferences, ensuring optimal comfort.

- **Miracast (optional)**

With the assistance of Miracast, the speaker can effortlessly and wirelessly display content on a larger screen, eliminating the need for any cables.

- **Built-in Lithium Ion Power Reserve (Optional)**

The built-in power reserve enables the Podium to operate seamlessly, even during power outages or in locations with limited power sources, offering users enhanced flexibility in its usage.

- **Microphone**

The wireless transmission system operates with a range of at least 10 meters. It features a 70 cm extendable hose rod with a gooseneck microphone that can be seamlessly switched with a wired microphone, ensuring that sound quality remains unaffected during the transition.

- **Front Led Signage**

The podium can be outfitted with a 32-inch large-screen advertising display, which facilitates the presentation of conference details and the introduction of speakers.
