

VOITTO DOCUMENT CAMERA

VT-975A

Larger Camera Sensor

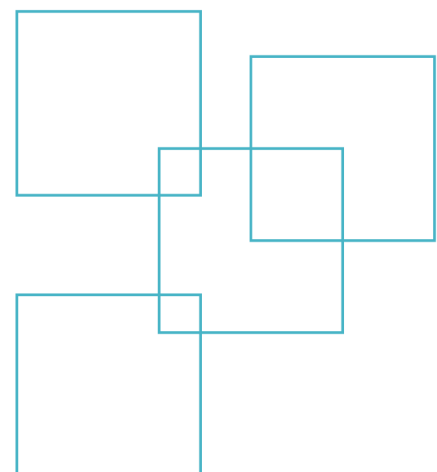

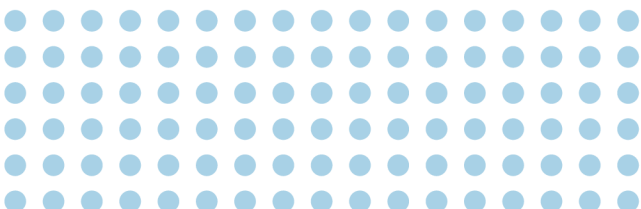

The Voitto Document Camera sets itself apart with its advanced technology, featuring :

- **Larger Camera Sensor:** Captures significantly more information compared to conventional document camera sensors, ensuring detailed and accurate visuals.
- **Enhanced Light Capture:** Equipped with larger pixels, the camera captures more light, resulting in brighter and clearer images, even in low-light conditions.
- **Optical Zoom Capability:** Includes advanced optical zoom, a feature rarely found in most document cameras, for precise and distortion-free magnification of details.

Folded

Compatible With Multiple Video Conferencing Applications

Specifications

Model	VT-975
