

## **The Meaning of Cashflow Quadrant!**

Finding your path is the goal in life.

"A Students" struggle in life because they made less mistakes than other students. "C Students" are successful entrepreneurs because they are comfortable making mistakes and search for successes in their failures.

### **Four Quadrants:**

**E**- Employee (You Have a Job)

**S** - Self-Employed (You Own a Job)

**B** - Big Business Owners (You Own a System and People Work for You)

**I** - Investor (You Make Money Work for You)

To be financial free you need to be in the B and/or I quadrant.

To be a B or I you must learn how to control how your money moves in and out of your bank account

### **What does it take to become a B/I?**

1. Dream
2. Determination
3. Willingness to learn quickly
4. Ability to use your god given assets properly
5. Knowing what quadrant you're in while generating income

You can earn money in every single quadrant and it's encouraged

You can be poor in any of the 4 quadrants but only the quadrants on the right side offer **Tax Breaks**

### **Thought Process By Quadrant:**

E is "I need job security and benefits"

S is "My hourly rate is X and I own what work I do"

B is "I am looking for a new president to run my business while I travel the world"

I is "My cash flow based on an internal rate of return or net rate of return is X"
